MURAL Proposal Form

1. Please include a brief description about your design that does not exceed 250 words.

In spirit of the Year of Games, our mural will feature a duel between two Gundams™, futuristic mechanical robots from Bandai's *Mobile Suit Gundam* series. The two Gundams that will be featured are the "ZGMF-X20A Strike Freedom" from the *Mobile Suit Gundam SEED Destiny* series, and the "XXXG-00W0 Wing Gundam Zero" from the *New Mobile Report Gundam Wing: Endless Waltz* movie. This canonically impossible duel between two futuristic Gundams mirror the ancient, heroic battles fought by gladiators in the Colosseum as part of the inaugural games of the Flavian Amphitheatre. The Gundams themselves reflect the technological interest of the residents of KC2 and STWing (Science and Technology Wing), our futuristic forethought, and our competitive spirit.

The mural will be placed opposite of the DNA mural, reflecting our belief that, alongside biological advancements in genetics, technological advancements in robotics will significantly benefit the well-being of humans and become an integral part of our lives in the future. In addition, the mural will be drawn on a wall that forms the hallway preceded by a flight of steps. This will give passing residents the same feel of walking down castle passageways with walls adorned by tapestries depicting war stories of the past; in this case, it will instead be murals depicting visions of the future.
